6/26 Tim Qualls
6/9 Bob Richards
6/21 Stan Rose
6/22 Eob Seibel
6/18 Rich Steivers
6/10 Jay Sudweeks
6/17 Dick Worst

I recently returned from Las Vegas, and the 77th annual Convention of Rotary International. The Convention was great; Las Vegas was terrible. Because of the recent birth of our son, Rudy, Megan was unable to attend the convention with me. That meant that I had to face the fear and loathing of Las Vegas on my own. I did take in one show which consisted mostly of dancing girls who had apparently lost their shirts at the gaming tables and were forced into gardening work as was evidenced by the palm branches that were stuck in their hair. Also to my dismay, I discovered that there were no Major League Baseball games played in Las Vegas. Apparently they had trouble with the bases melting. Not being able to find any other good clean sport, I decided to spend most of my time at the Convention Hall which was probably a good idea anyway.

The quality of the speakers and programs was excellent. The abundance of energy and the uniqueness of the International congregation were again the key ingredients to Rotary's International Convention. Our new President for 1986-1987 is M. A. T. Caparas, a graduate of the Harvard School of Law, and a native and current resident of Manila, Philippines. Mr. Caparas' theme for this year is "ROTARY BRINGS HOPE". For an international service organization with the scope and power of Rotary, I cannot think of a more appropriate theme.

It seems to me that a theme for our upcoming local Rotary year would be in order. The first thing that comes to my mind is the tremendous pool of talent and energy that we have in our own Club, but that we have not used, to any great degree, for local service projects. Newton's law of inertia seems to ring true. A body at rest tends to stay at rest.

Your Board of Directors has three main goals for the upcoming Rotary year. First, to continue with the tradition of excellence that Dick Boyd and his predecessors established in the areas of club service and fellowship. In other words, fun at lunch. We also plan to continue our club's tradition of strong youth programs, such as our C.S.I. scholarships and our International Youth Exchange Programs. Our third goal is to do some real community service. Newton's other part on inertia is that "a body in motion

tends to stay in motion." With your help we plan on getting our collective Rotary "body" in motion and keeping it there for awhile. Hence, our Rotary theme for the year...BODIES IN MOTION. Please note that it is merely a coincidence that there were naked "Bodies in motion" at the M.G.M. Grand in Las Vegas.

Until next month.

Happy Fishing
Tom Ashenbrener
Tom Ashenbrener

Welcome our three newest members. Take time to greet them and personally welcome them to the club.

TOM SAMTER - Tom was born someplace in New York on June 25th. He graduated from George Washington University with a Masters in Hospital Administration. Tom's favorite sport is skiing. He is sponsored by Mark Grefenson with a classification of Doctor's Park Administration.

ROGER BOLTON - Roger and his wife, Brenda, have two grown sons. He was born in Soda Springs, Idaho on October 14th and graduated from Twin Falls High School. Roger is the Owner/Operator of Twin Falls Wheel & Brake. He enjoys flying, river rafting, and hunting. Roger is sponsored by Kevin Trainor with a classification of Auto Repair.

DOUG SCOTT - Doug's wife is Cindy. He was born in Twin Falls August 25th and graduated from Cal Poly University with a B. S. in Environmental Engineering. Doug likes basketball and fishing. He is General Manager of Polar Manufacturing, Inc. Doug is sponsored by Steve York with a classification of Refrigeration-Manufacturing.

THE BOYD'S NEST

To the relief of many this is my last contribution to the Rotary Rumbles. My term as President is coming to an end. This past Rotary year has been challenging, interesting, productive (?), and, yes, somewhat disappointing. I had some rather lofty goals when the year began. We were able to maintain the membership and inducted many fine young men. Now we have the challenge of keeping their interest. To do this will mean involvement of every Rotarian. President Tom has taken a positive first step. Mike Brock will serve as Chairman of a newly formed Special Project Committee. Mike and his committee will identify community needs and develop a game plan to meet selected needs that are within the capability of the Club. Each of us should dedicate ourselves to supporting this committee with our special talents and time. Nothing of lasting value comes easy. Let's make a difference in our community!

And finally, I want to wish President Tom all the success in the world. I firmly believe that Tom is going to steer this club in a new direction and club service will become a reality. Each of you is the key. Tom can lead, but to be truly successful, he must have dedicated Rotarians ready to follow. Don't let him down.

In closing I would like to again THANK all Committee Chairman, Rich and Frank and the Board of Directors.

1986 ESSEX HOSTINGS

Six busloads, carrying 280 Foreign Exchange Students from 32 different countries will be coming through Twin Falls on their annual 9,500 mile tour of the USA on Wednesday, July 9th.

Your help is needed in hosting these young people on this date.

Blue Lakes, Buhl, and Jerome clubs will be actively participating as usual. However, an enthusiastic response is needed from our Club in order to carry out the balance of the placements.

The IYC Committee will be canvassing all members of the Club shortly. Please mark your calendar and do all you can to support the program.

Jay Bailey
Chairman, IYC 1986-87
